

RUTHMANN STEIGER ® T 510 HF wins MOVICARGA Award

The RUTHMANN STEIGER ® T 510 HF has been named as the winner in the category 'best truck-mounted working platform (large appliances)' at the first Movicarga Awards*.

The award ceremony took place in the SANTO DOMINGO hotel which is located in the center of Madrid (Spain) on September 22nd, 2016. The award ceremony was attended by industry experts from around the world.

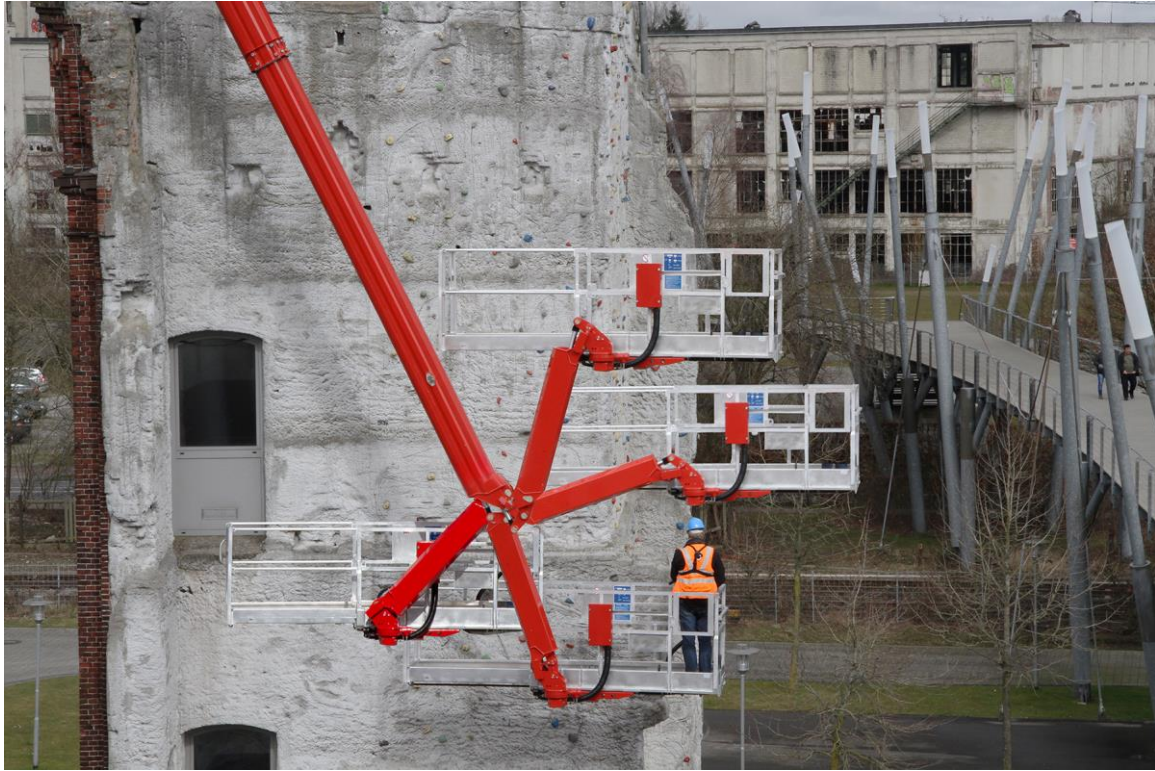

The well-known Spanish journal Movicarga which initiated this international contest, invited the aerial platform manufacturer for the first time to participate with their truck-mounted platform innovation in the international competition.

Three possible winners were chosen by an expert jury from the collected submissions. Alongside the technical performance of the machine and the customer benefits, the added value of the product was evaluated as well.

The RUTHMANN STEIGER ® T 510 HF – with its revolutionary performance data of 51 m working height, mounted on a 2-axle chassis, completely impressed and won by a large margin against the well-known competitors.

Uwe Strotmann (Head of Sales RUTHMANN) comments on the result as such: "It makes us very proud and happy that we have won this award. With the STEIGER ® T 510 HF we really achieved the breakthrough. No truck-mounted aerial platform manufacturer offers more performance data on a 2-axle chassis. This machine stands out as extremely professionally developed and so offers multiple technical advantages for the user alongside added value for our customers and world-class performance data.
